Research Achievements

I'm a fourth-year Ph.D. student at the Department of Electrical and Computer Engineering at the University of Wisconsin-Madison. During my prior PhD study, I have published three top-tier papers (DAC 2023, ICPP 2022, and Euro-Par 2021) and one top-tier journal (IEEE TPDS 2022). I received **second place** in ACM/PACT Student Research Competition (SRC 2022). I also received the **champion award** in a research competition (IEEE HPEC Challenge 2020). I was a presenter at several C++ conferences (CppCon 2023, CppNow 2023, and CppCon 2021). I also gave talks in MediaTek Research, Berkeley National Lab, and NVIDIA Research. My recent work focuses on building a CPU-GPU task programming system using modern C++ Coroutines and CUDA.
